

# PRIMEGRIP

## WILDCAT

LATEX

### 23-970

- 10G poly/cotton shell.
- Crinkled latex coating.
- High elasticity for dexterity.
- Superior grip in dry applications.

## PANTHER

LATEX

### 23-971

- 13G poly/cotton shell.
- Latex foam coating.
- High elasticity for dexterity.
- Superior grip in dry applications.

## CHEETAH

LATEX

### 23-972

- 13G poly/cotton shell.
- Double-dipped sandy latex coating.
- Superior grip in dry applications.
- Excellent abrasion resistance.

## JAGUAR

NITRILE

### 23-973

- 13G poly/cotton shell.
- Sandy nitrile coating.
- Superior resistance to punctures.
- Extreme temperature resistance.

## BOBCAT

NITRILE

### 23-949

- 13G poly/cotton shell.
- Smooth nitrile coating.
- Better grip on wet and oily surfaces.
- Extreme temperature resistance.

# PRIMEGRIP

## ULTRALIGHT

POLYURETHANE

### 23-974

- 13G poly/cotton shell.
- Polyurethane coating.
- Non-allergenic, non-sticky grip.
- Great puncture/chemical resistance.

## CONDOR

### 23-975

- 13g HPPE shell.
- Sandy nitrile coating.
- ANSI Level 4 cut resistance.
- Extreme temperature resistance.

## RAPTOR

LATEX

### 23-976

- 13g HPPE shell.
- Crinkled latex coating.
- ANSI Level 4 cut resistance.
- Added abrasion resistance.

## OSPREY

POLYURETHANE

### 23-977

- 13g HPPE shell.
- Polyurethane coating.
- ANSI Level 4 cut resistance.
- Great puncture/chemical resistance.

## FREEZEMATE

LATEX

### 23-978

- Warm 7g poly/cotton double shell.
- Latex foam coating.
- High elasticity for dexterity.
- Superior grip in dry applications.
